Once registered, you will receive an email with instructions on how to access the pre-program test. The instructions provide detailed steps for completing the test using a Remote Proctor.

The assessment is computer-based, and you must select a day and time that works for you. The duration ranges from 20-40 minutes, depending on your proficiency level, and it's available on demand 24/7.

Please provide an accurate self-assessment—overestimating your ability may result in questions beyond your level, while underestimating could prevent you from testing into higher levels where you may succeed.

In addition, you will have about **two weeks to complete the test**, so please be mindful of dates.

Please send completed form or questions to internationalplan@oie.gatech.edu.
